## 13 Midshipmen Face Dismissal In Marijuana Case at Annapolis

Special to The New York Times

ANNAPOLIS, Md., Feb. 21—White, the academy press officer. "We intend to take corrective action as fast as possible."

It was the second time in the last 10 months that midshipmen had been caught smoking marijuana in the dormitory. After an investigation last June, four were dismissed from the academy.

Rear Adm. Draper L. Kauffman, superintendent of the academy, immediately recommended to the Secretary of the Navy that they be dismissed. A spokesman said tonight that the men might be sent home as early as tomorrow.

Acceptance of the recommendation by the Secretary, Paul R. Ignatius, is considered

shipman's room in Bancroft Hall.

When They Ask, "What Was It Like?"

... What Will You Say? ... What Will You Remember?

It has been said that we spend about 20 days standing in meal formations during our careers at Navy . . . there is no slack.

The ecstasy of the crowd . . .  
The disaster of the score . . .  
The paradox of Navy football

Though only a very few  
of us even come close  
to the catalog-type  
existence expected, there  
still exists an element in  
our lives known as  
routine . . .

... And more routine

Another tough one . . .  
when the end came,  
it was just one more  
in a series of disasters . . .

For some reason, a  
change of uniform  
always seems so much  
more significant than  
merely changing  
clothes . . .

David and Goliath . . . in reverse

... The fascinating and  
challenging world of  
Navy academics ...

After Pitt, it seemed intuitively obvious that this would not be a strong year for Navy football . . .

. . . There are none who know the *true* value of peace  
as well as those prepared to give their lives for it . . .

... Only a typically  
great effort  
by the 150's  
salvaged an  
otherwise dis-  
appointing weekend ...

... Another loss ...  
but once again  
midshipmen proved  
their ability to rise  
above the situation ...

... A different  
kind of football ...  
and the sweetness of  
victory over  
Maryland ...

... And finally, the  
one bright spot in  
a season of disasters  
... Virginia, Homecoming,  
alumni weekend, and a  
lone Navy victory ...

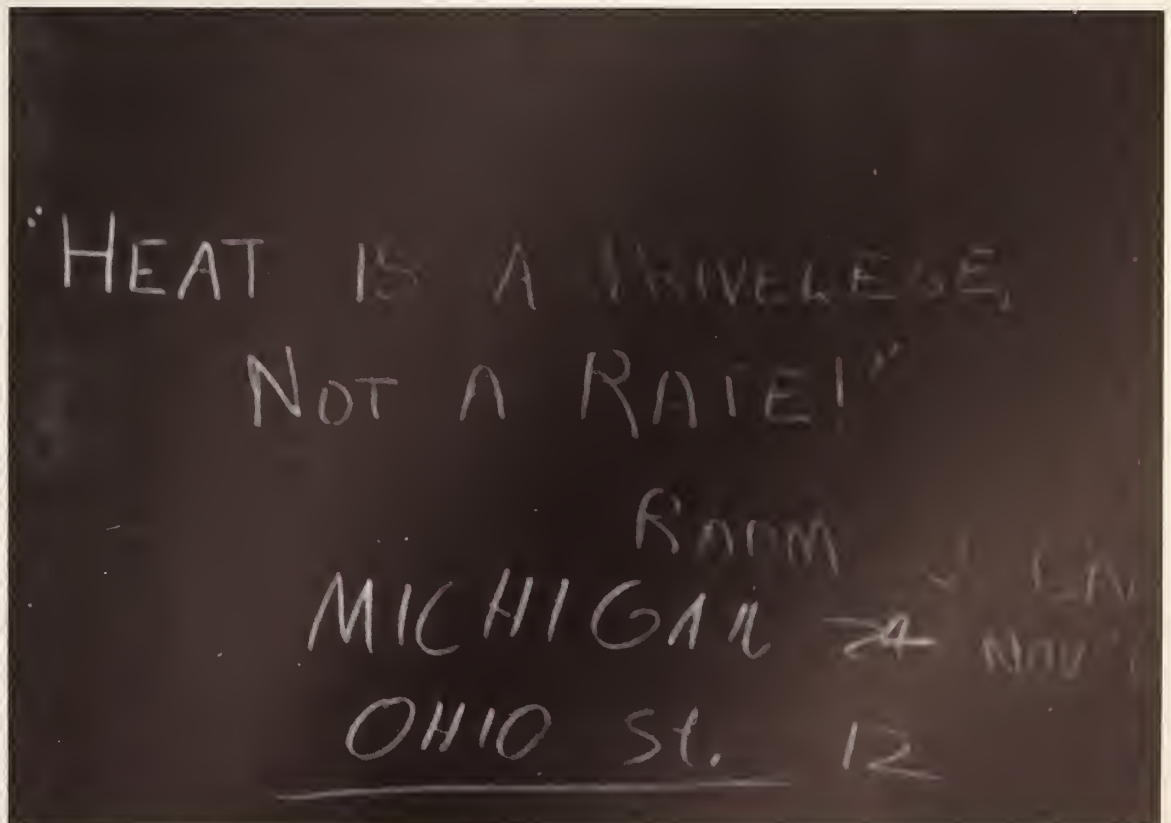

... There was frost on the heaters ... but the buildings were impressive and Spring would see a nice crop of sod ...

... Forget it!!!

. . . It was a long  
time coming . . .  
but worth every  
second of it . . .

. . . In a year in which  
there would be more  
victories over Army  
than any year in  
the past decade, this  
was the first . . .

A little over a year ago the Class of '70 had a pep rally. The only difference between this and other rallies was that this one most closely represented a "sit-in," unheard of in the military sphere of influence. There was, at that time, a serious lack of communications between the class and the system which that class felt was outmoded.

At the beginning of this academic year Captain Robert Coogan became the new Commandant. Due to a tremendous effort on his part (coupled with the earnest endeavors of many members of the class) in an attempt to eliminate the "sickness" which brought about the dissent, the Academy has been altered fantastically. Still in existence are the rigid disciplines, the military training, and the surface gripes about reveille, meals, and restrictions. However, the deep-seeded protests are on the way out, and the communication up and down is far better than it has ever been. A great part of the reason for the change is Captain Coogan, and we thank him.

# 7 Service Academy Students Sue on Chapel Attendance Regulation

By Thomas W. Lippman

Washington Post Staff Writer

Six midshipmen at the U.S. Naval Academy and a West Point cadet went to court here yesterday in an effort to break the service academies' requirement of compulsory chapel attendance.

In a lawsuit drafted by attorneys from the American Civil Liberties Union, they challenged the requirement as a violation of the Constitution's ban on establishment of religion.

Lawrence Speiser, director of ACLU's Washington chapter, said the lawsuit was prepared after a "year-long fruitless effort by the ACLU to induce the military services to change their regulations."

Defense Department spokesmen refused even to confirm that such a policy exists. Because the suit has been filed, they said, they were authorized to say only that "our legal counsel is studying it."

## Punishment Cited

But the middies and the cadet say in their petition to the court that students at three service academies are subject to "stringent administrative punishment" if they fail to appear at chapel on Sundays. One midshipman, Speiser said, received 50 demerits and a 10-hour walking tour as punishment. The Coast Guard Academy is not mentioned in the suit.

None of the plaintiffs in the case is from the Washington metropolitan area, but the suit was filed here because the seat of the federal government is here.

Four of the midshipmen are

under 21, and required an adult stand-in to sue as their "next friend." He is the Rev. Robert J. Drinan S.J., dean of the Boston College Law School. Speiser said Father Drinan agreed to enter the case at the request of the ACLU.

All three service secretaries, Army, Air Force and Navy, are named as defendants, along with Secretary of Defense Melvin Laird. No Air Force Academy cadets are among the plaintiffs, but the suit asks that any ruling on the chapel attendance requirement be made applicable to the Colorado Springs school as well.

## 'No Religious Test'

The compulsory chapel rule violates the Constitution in two ways, the suit says.

Article VI provides that "no religious test shall ever be required as a qualification to any office or public trust under the United States." Because the students are officer candidates, the suit says, it is a violation of that article to make church attendance a precondition of their commissions.

In addition, the suit says, the rule violates the First Amend-

ment's ban on "establishment of religion."

The U.S. Supreme Court ruled in 1947 that neither states nor the federal government "can force or influence a person to go to or to remain away from church against his will or force him to profess a belief or disbelief in any religion."

That rule, the ACLU suit says, should be made applicable to the service academies as well as to other branches of government.

Most of the plaintiffs, the suit says, "are sincere followers of one or another of the major religions, and it is not the desirability of religious services but only the compulsory nature thereof" that they object to.

... that "good"  
feeling that only  
the dark ages  
can bring...

## Summer '69

At the beginning of this (as every) summer there was the usual vibrant enthusiasm. Leave was, as always, great; and even the professional aspects of summer training didn't bother too many of us. There was a more mature outlook to the training (3/C Mickey Mouse was to a large extent eliminated). Plebe summer at the Country Club of Annapolis was still gruesome, but better. 2/C not on the detail were again completely confused, and 1/C cruise was the customary zoo. The moonshot was a tremendous tribute to man's technology, and weather was, as always, "beautiful." By the end of the summer Little Creek was an obscenity, a certain "Jolly Green Giant" was labeled all sorts of names, and it was good to be home from Europe.

## September

The novelty of new stripes and positions soon wore off. There were the customary reveillie games; the Hunter and the hunted. P-rades were their usual best. Football . . . well, we tried hard! Little Anthony and the Imperials put on the show of the month, (Excluding Saturday noon meal formations, of course: "Sideburns could be shorter, some haircuts are marginal, and shoes need work. But, otherwise the platoon looked pretty good.")

## October

Ring-a-ding-ding. By October the Brigade had once again returned to the hideous and engulfing element known as "routine." The "Log" magazine had already started its climb to the Number One conversation piece of company wardrooms, academic classrooms, and interested friends! Very few of us got to witness the Vietnam Moratorium in D. C. but some very interesting conversations found their way into the academic classroom. Pittsburgh and Rutgers football games offered a chance for most of the Brigade to get away from the monastery for brief weekends, and the alumni got to see the lone Navy victory (over Virginia). Halloween was "groovy?"

## November

With the burning desire for victories over Army in our hearts, we braved the winter's frost as the new heating plant failed to heat. A trip to Miami for some and Vets Day leave for most offered real bright spots, while the Jerry Butler concert and the Masqueraders kept the entertainment decent. The pace was quickening and the victories over Army apparently brought back the heat. The big one in Philadelphia ruined Thanksgiving, but the parties afterward ushered in December quite nicely.

## December

Before even recovering from Army, we were assaulted by the Academic Department and all those papers and other "odds and ends" which were suddenly due. We received a tremendous (but beautiful) shock to our systems when Capt. Coogan announced a long-needed major change to First Class liberty (0200 expiration with a 50 mile radius for Saturday); he was immediately named Man-of-the-Year by the class of '70. Registration without computers turned out to be the all-time zoo, and the Graduate Record Exam was a generally accepted lost cause. The annual production of the "Messiah" was again wonderfully done, and completed the pre-Christmas mood-making. Merry Christmas to all . . .

"Oh boy!" A new year and a chance to excel. "Mate, take his name . . ." Oh well, scratch off '70. The snow made intramurals interesting and "individual workouts" became the word of the day. The Commandant contributed by his "wardroom speeches" and a little thing called underclass car-riding. After turning in term papers, formal labs, and other miscellania, final exams almost seemed like R & R. But, they took their toll. Then came the Chapel suit. Feelings in the Brigade ran the complete spectrum due to rumors of all kinds and the individuality of each midshipman. In general, however, most wanted to see the compulsory nature of chapel services ended, but regretted heavily the way in which the whole situation was handled.

## January

Due to a few well-spaced breaks and the much more reasonable liberty policies, the Dark Ages were slightly more illuminated than in recent memory. The Musical Club show and ever present dances helped pass time until Washington's Birthday afforded us a break. When 100th night came around it was truly the end of a tradition. The all-time case of misrepresentation gained national interest as "all the midshipmen" "donned their wigs for another publicity shocker. It seemed very strange that there were still a lot of short haired midshipmen on liberty (must have been the plebes). The Grass Roots finished it up with quite a concert, after we had done another number on Army.

## February

While many of the varsity teams were proving their prowess the Brigade Boxing Tournament took over the spotlight. Spring leave was beautiful except the countless questions from everyone like, "What are you people doing up there? We've been reading about it everywhere." The return from spring brought with it "legality" to 1/C cars, and those who got caught were still restricting. Easter Sunday saw a few scraps of snow, and the coast button had been located (it was locked up in the weapons department).

## March

Spring started to appear and the sod was beautiful. The lacrosse team started its ascent to a share of the National Title. Masqueraders once again proved their talent and NAFAC showed there were many different ways to mix business with pleasure.

## April

Uniforms changed, 2/C showed that a Ring Dip and the Ring Dance were not exactly the same, and the company drill competition — forget it! The xerox machines proved that they *could* overcome the Weapons Department, and finally there was June Week. Herndon excited the freshman class immensely. P-rade atmosphere reeked of finality (among other things), and the virgin cannons still didn't go off but nobody really seemed to mind. The formals were attended mostly by underclass, and varsity teams completed a tremendous year against Army. The Annapolis kids got some "outstanding" caps at graduation. It's been a helluva a year, but it will always be a much better memory than experience.

The photo staff made the book possible by taking approximately 20,000 pictures of nearly everything; the book can never be better than the pictures in it. I would like to thank my whole staff for their efforts during the year.

In the preparation of a book of this size, many pictures are collected which are obviously out of character, controversial or irrelevant, but often extremely amusing. These photographs do not necessarily represent the views of the Brigade, the staff, the administration, or the publisher. They are merely presented in the interest of sharing the humor the staff has had the privilege of seeing during the past three years. If they still bring offense, simply cut along the dotted lines provided. You should have seen the ones which didn't even make this page!!!

Cut Along Dotted Line

Since the dawn of history, man has sought after idols — Tangible objects which represent the superhuman qualities he knows he will never possess. All too often he has tried to elevate his fellow man to this lofty position in order to have a living example of near “Godliness.” When the object of “worship” fails to be a “god” there is panic.

In a time such as the present, when youth, government, and the military system have come under severe criticism leveled at them from widely varied sources, the service academies naturally become a main focal point of interest. While one source of attack condemns them for being extraordinary, another source punishes them for their normality.

The Class of 1970, right or wrong, famous or infamous, has proven in the past four years that its individual members are, in the final analysis, merely human beings — damn good human beings — but human beings, nonetheless. The staff of the 1970 Lucky Bag has attempted to represent this humanity. If any idols have fallen, catalogs are always available.
